THE STATE OF TAXES-Americans, no matter in what state they live, are paying over 50 per cent more in state taxes than they did 10 years ago. The national average during the fiscal year ended June 30, 1959, reached an all-time high of \$91.70 per person, compared with about \$60 in 1950. Figures for the individual states (see Newsmap above) ranged from \$56 in Nebraska to \$150 in Delaware. Forty-three states registered increases during the year while only six showed decreases. Total state tax collections in fiscal 1959 was \$15.8 billion. When local taxes are included, this figure is doubled. Data from Commerce Clearing House.

How much wheat can the people of the United States afford to carry over from year to year? How much of the growth of our wonderful agriculture can we afford to have rot in the holds of obsolete ships, in bins and warehouses, or in piles in the open, subject to wind and weather? This is not a wasteful question. It is a very serious one, as that wheat has been paid for, every bushel of it, by the American taxpayer.

As of July 1, this year, the wheat carryover otaled 1,277,000,000 bushels as compared with 881,000,000 last year. It is expected that the carryover next year will be much larger. The Commodity Credit Corporation's investment in wheat on July 1 was \$3,085,000,000. This so-called investment is no investment at all. It is a government subsidy to the wheat farmer. Such subsidies were nstituted during the Depression years with the object of saving the United States farmers from becoming a peasantry. To a degree, it has aided the farmer. On the other hand, it has encouraged city slickers to go in for subsidy farming on a large scale to get what they can for themselves. reduced the farmer's equity in anything that is bought with money. When a dollar equals a quarter, it takes more quarters to buy a dollar's worth and a fellow may think that he has more money in his pocket.

Whereas the wheat farmer gets some benefit the really pressing load of this subsidy falls on the purchasers of bread and other wheat products, the price for which is constantly rising

★ Dr. Jordan Says: ★ Rats Are Number 1 Enemy; Very Dangerous to Humans

Plague is a constant danger beselves; when this happens the rat flea which harwhich may be, and often is, a human being.

Several years ago, a study was made of attacks by rats on human beings in Baltimore. Records were obtained of nearly a hundred persons who had been bitten so severely by rats that they had to receive hospital treatment. This same report recorded studies which suggested that rats bite people is that they are hungry.

The amount of injury which rats do and their burden on our economy is almost past belief. Several years ago, it was calculated that the annual damage done by rats in Washington and Baltimore alone was between \$400,000 and \$700. \$216 million for the United States alone. It is probably more since damage is undoubtedly greater in the country than in the cities.

Lantz of the United States Department of Agriculture, has listed some of the more destrucive activities of rats: they eat corn during growth and in cribs, and a single rat can eat from 40 to 50 pounds of corn a year; they destroy they did not add to their credentials for poultry; rats destroy wild birds, ducks, woodchucks and song birds; they attack bulbs, seeds and plants.

There seems no doubt that rats should be hunted mercilessly on all fronts. They are rivals of mankind and stand a good chance of being here after human beings have disappeared from the face of the earth.

WASHINGTON (AP)-Internal Revenue collections from New York State for the year ending last June 30 were approximately 85 million dollars less than the preceding year.

Dana Latham, U. S. commissioner of internal revenue, reported Tuesday a drop in nationwide collections of 200 million dollars. He said a gain in collections of individual income taxes and employment taxes were offset by a decrease in the return from corporation income taxes.

In New York State, the revenue service collected \$15,433,184,000 for the year ended June 30. The previous year, the collection was \$15,348,079,000.

The total amount collected in the nation this year was \$79,799,-

The inspired beauty of perfect proportion!

The precision control of Wide-Track Wheel Design!

The softer ride of supple suspension!

The wide choice of vigorous Tempest V-8 Engines tailored to economy or high performance!

The car craftsmen who developed Wide-Track Wheels, the innovation that brought a new standard of roadability to the American passenger car, present another fresh original for 1960!

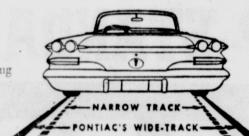

With clean, crisp lines they've composed a delightful rightness of form with unity and rhythm.

Into the proved principle of Wide-Track (wheels farther apart for a steadier stance) they've engineered an ingeniously improved suspension system. This combination of a firm foundation and supple suspension gives you flawless control, more skill in the fine art of driving, smooth stability, bump-yielding softness.

The power plant is typically Pontiac. A wide range of restless, ground-gaining power packages to choose from. All are husky V-8's, ranging from the frugal 425E economy engine that prefers regular grade gasoline to the fiery Tempest 425.

Haven't you been an admiring spectator of Pontiacs long enough? Isn't this your year to become a participant in Pontiac pleasure, to move up to Pontiac ownership, where the enjoyment is the fullest, where the point of view is the freshest?

Wide-Track Wheel Design brings car and road into new relationship. Pontiac wheels are farther apart to widen the stance, give better balance. With the widest footing on the road, you get a feeling of complete control. You're steadier, more secure. Lean and sway virtually disappear. You enjoy stability no narrow-track car can offer.

ALBANY, N. Y. (AP)-The attack Monday by a bear on a human was the first on record for New York State's woodlands the State Conservation Department

But the possibility of such attacks, especially on reckless tourists, has been a large worry to department officials for years. Ironically enough, after years of tourists' cavorting close to the huge wild animals, the first attack

was on a Conservation Department employe. Attacked, Fled

Richard Bomyea, 25, of Saranac Lake, a fire observer, was mauled while he was walking along a remote Adirondack mountain path near Saranac Lake. The bear emerged from under a ledge, attacked him, then fled.

A department spokesman said the bear probably was frightened and struck at Bomyea while trying to get away.

Bears, which seem to be getting more numerous in the Adirondacks, usually are fearful of humans. But they like the easy life and the easy pickings in garbage dumps near state campsites and isolated mountain communities.

There, many bears are seen lumbering out of the woods at dusk for their nightly ration of refuse. And there, the tourists turn up with their cameras. A conservation official reported once seeing a father gently shoving his son toward a gigantic bear

to offer the aviation enthusiast his best opportunity for service, and a day seldom passes that does not see one or another local unit contribute to the w fare of its community. In view of the times, the missions currently most significant are the search and rescue calls from the Air Force, of which the CAP is a direct civilian auxiliary. The training of young people to be prepared for these missions is one of the big purposes of the cadet program. The other is its Aviation Education field.

The local squadron is open to all young people from 14 years of age and up who wish to be-come a cadet. The meetings are held at 7:30 p. m. Wednesdays at the new Army Reserve Center, Flatbush Avenue. All cadets should be present this Wednesday to turn in their renewals.

We Get Letters . . . All the Time..

Attesting to the taste-tempting deliciousness of FORST Meats

Shown below are excerpts of letters received from Food Editors as a result of their having tested Forst hams. Each is a genuine, free and voluntary expression of opinion, in the very words of the writers. In every case no attempt was made to influence or color the statement made and the original letters are in our files with the full names and address of the writers.

> FOOD EDITOR—LOOK MAGAZINE—Everyone here agreed Forst ham is undoubtedly one of the finest flavored hams they have tasted in a long while. I certainly did enjoy it, and can highly recommend it as a superior product.

> SOCIETY EDITOR—BRIDGEPORT POST—Never have I tasted a more delicious ham. The slang expression "out of this world" fits it perfectly.

> FOOD EDITOR-NEW YORK EVENING SUN-I don't know when I have enjoyed a ham so much. EDITOR—WOMAN'S PAGE—THE HOME NEWS—Last evening I had my first

FOOD EDITOR—KING FEATURES SYNDICATE, INC.—As it happens, I have on my desk amidst an accumulation of correspondence over a dozen letters from readers asking for specific recommendations for buffet party fare. Well, all that I can tell them is to order a Forst's Smoked Turkey, plus a big Forst smoked ham, and the success of any buffet party is certain.

WOMAN'S PAGE EDITOR—THE TOPEKA STATE JOURNAL—The ham tastes more like the hams of yesteryear. They excel anything I have been able to get in this part of the country.

FOOD EDITOR-SEATTLE TIMES-Everyone agreed that it was Wonderful, Delicious, Perfect and such words. Really I never tasted anything so good.

FOOD EDITOR—THE ATLANTIC JOURNAL—And to say that Forst's smoked ham is delicious is simply too mild. It is truly marvelous!

FOOD EDITOR-PHOENIX REPUBLIC AND GAZETTE-It is not only DELI-CIOUS, but AMBROSIAL!

WOMAN'S EDITOR—THE DES MOINES REGISTER & TRIBUNE—Never had anyone tasted such a delicious ham as the one from the Forst's smokehouse.

FORST-TREAT your family and friends. Have a Forst ham on hand when it's your turn to play host or hostess!

By EMILY POST Author of "Children Are People" and "Etiquette," etc. NOISY CHILDREN OVERHEAD

Dear Mrs. Post: I think the tenants overhead must be raising future Olympic champions in jumping. We really can't stand the loss of several hours sleep in the morning. But how, in your opinion, is the best way to register a complaint? We asked our superintendent to tell them, but he refused saying that he can't take sides with any of us. He has, however, confirmed whate we suspected, that their children's room is directly over our bedroom. The Overheads are complete strangers.

Answer: I think it best to try to keep discussion of the situation between you and the "Overheads." My suggestion would be to telephone, or write, Mrs. Overhead, which she would have no cause to resent provided your request is reasonable and made without rancor. You might say that after talking it over, you and your husband have decided it best to tell her about the early morning jumping in her children's room, evidently just over your bedroom, which makes it impossible for either you or your husband to sleep after six o'clock, and that you would be most grateful for whatever she could do to improve the situa-

those pills?"

This is often the question when a customer sees the shelves in our pharmacy. Row on row on row of bottles, boxes,

canisters, tubes, vials, jars...about 2,000 items in all. Good question. Who are they for? The answer, of course, is you. Say you go to a physician and he writes a prescription which you bring to us to be filled. We can't tell what the ailment will be-there are thousands, and we don't know what medication the doctor will prescribe. To provide prompt pharmaceutical service we have to be ready for just about anything. Which we are.

The Yankees surrendered their control of the American League somewhat ignominiously a few short days ago and the impression exists they'll never be the same again. And this could be the finest thing to happen to baseball since Judge Kenesaw Mountain Landis restored face to the "national pastime" after the Black Sox scandal of 1919.

Co-incidentally, 1959 marks the first since the scandal that the Chicago White Sox have been able to garner a pennant. They were equal to the Yankees after July 4, 1958, and dominated them from the outset in 1959.

Two events stand out in the mind of this former Yankee stalwart. One was Casey Stengel's sudden switch from a player's champion to the side of management, so to speak. When he lambasted Mantle and other players for off duty behavior and chided The Blaster for not living up to his potential, Old Case was trying Braves' Hank Aaron slides into second on a a dodge that fell flat. Nobody, it seems, is capable of inspiring this double off the left field screen in first inning of lacklustre Yankee ball club. They are cast in the mold of the quiet, playoff game at the Coliseum. Dodgers second confident young business man type. They make for nice citizens, but not pennant winning ball players.

• Trade That Fizzled:

The worst Yankee holocaust in 35 years recalls the other incident-trading off Billy Martin in order to restore peace and light to the troubled Yankee household. The fact remains the Yankees haven't been the same club since Martin went away and Mantle has deteriorated as a big star.

The Yankees have made a lot of money, but have been steadily losing friends. Their unfortunate demise will not inspire too many tears. And as a confirmed American League rooter, we'll have to go with Chicago in the World Series. They are an old style ball club that uses the leg along with the bat and glove. This seems to be the year that baseball in the classic mould will dominate the World Series.

• The Peerless Prognosticator:

Palladino's prognostications are becoming more potent than Paladin's pistol. The man who picked Johansson to knock out Floyd Patterson said back in April: "The Yankees should take the American League pennant. However, if the Chicago White Sox get off to a better start than they did last season, they can take it all. The Dodgers should win the National League pennant, because of the best young pitching staff in baseball. a good defense and a 'new' Duke Snider." Sounds mighty good and, of course, Palladino wasn't even counting on Wally Moon.

Grimm Unloads Three Coaches

CHICAGO (AP) - Charlie Sox Ready for Series Grimm Tuesday made his first move as new manager of the Chicago Cubs - he fired coaches Fred Fitzsimmons, Rogers Hornsby and George

Pitching coach Fitzsimmons, manager of the Philadelphia Phillies from 1943 to 1945, and infield and base running coach, Myatt, former coach of the Washington Senators and Chicago White Sox, came to the Cubs in 1957 when Bob Scheffing was named manager.

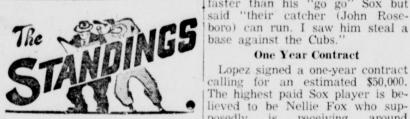

Hornsby, hailed as the greatest right handed hitter in Baseball's Hall of Fame, has been the Cubs' batting coach since 1958. Four seasons of his fabulous career (4929-1932) were spent with the Cubs as player and manager.

Grimm, who returned to the Cubs managerial role for the third time Monday when he replaced Scheffing, succeeded Hornsby as Cub pilot in 1932.

Communion Sunday At Christ Lutheran

Sunday, Oct. 4, is being observed throughout the Christian Church as World Wide Communion Sunday. Thus in Christ Lutheran Church also, we have the glorious opportunity to fellowship with our fellow Christians at the celebration of the Lord's Supper, the Holy Eucharist. May we be able to say with Jacob in the text for the day from Gen. 28:16, "Surely the Lord is in this place, and I knew " Lord is in this place, and I knew it not"—one of the examples of primitive" religion.

Every conscientious Christian will make every effort to partake of this glorious feast. The time is 11 a. m. and there will be a nursery in the parsonage for the little ones. New members are being received by pro-fession of faith and letter of

The Augusburg series of uni-form lessons will be considering the Acts of the Apostles for the next six months, Sunday's theme being, "You Shall Be My Wit-nesses"—Acts 1-14. Classes are being held for all age groups after a brief worship service with a songfest and pledges to the American and the Christian flag, and the Bible. All are allish for foreign born. This course "Come, study, and worship with is held each Wednesday in Pine us" is the invitation to all our Lutheran friends in Woodstock.

Going back to school isn't so very bad . . . but it's bad enough.

Of course, I know that all children have to go to school and I really like to learn thingsbut Summertime is so much more fun.

and spelling hard words, too. And then there's arithmetic. That's really getting hard,—(but I don't care,—Daddy always helps me). So I shouldn't complain too much . . . but I miss those days when Daddy would take me to the store. I like it down there-so many things to do.

This year we're really reading-stories and all kinds of things

As soon as I get big enough, I'm going to help Daddy all the time. But I'm still too small yet so won't you go in and see him? He says he's got the best auto tires in town. And if my Daddy says it-it's so.
